

The Satanic Default Rebuttal

25 September 2018

By Vanita Lynn Warren

So now the *Default Rebuttal* is:

“Oh! They are basing their understanding of the cosmos on the Bible and not science.”

This is intended to negate and invalidate the scientific evidence, which does exist, that exposes the lies and deception of a spherical-heliocentric earth and cosmos—i.e. the fairly recent evidence of the CMB (cosmic microwave background) and of the Planck Satellite probe, which they were hoping would overturn what the WMAP had already shown them. That, to everyone’s surprise, Planck clearly revealed that the Earth is in fact the center of the Universe. Scientists (aka: *Screwtape*) calls the new earth-centered data “The Axis of Evil.” The Planck probe confirmed that the “observable” universe actually revolves around the Earth. What? This can’t be right! So, now they are back-peddling to explain what may be wrong with the Planck evidence—or explain what it really means in light of their Heliocentric model. They are now trying to hide or disguise the facts and cover the truth with a plethora of cosmological jargon that most people won’t understand or investigate; or they acquiesce to just the Milky Way Galaxy, or our Sun appearing to be the center of the Universe. If you really want to know the truth, view the trailer for *The Principle* movie at <https://www.theprinciplemovie.com/>. After viewing the trailer, the entire movie is well worth the purchase if you decide you want to know more.

Proverbs 18:13

He who answers a matter before he hears it; it is folly and shame to him.

Even Christians and Jews have easily fallen into this Default Trap of the Adversary. We subconsciously assented to the notion that SCRIPTURE IS IGNORANT and cannot be trusted or depended upon to explain the true nature of the cosmos. Yet, many Christians emphatically defend the Six-day Creation account, Noah’s Flood, the Parting of the Red Sea, and other Biblical narratives—while at the same time (out of true ignorance), also defend the heliocentric model. BOTH CANNOT BE TRUE, and this is where sincere Christians and Jews inadvertently “*give the Devil place*” (Ephesians 4:27, James 4:4-7).

If you believe...

The Heliocentric Model of a spherical Earth which spins/rotates on its own axis at 1,000 miles per hour—approximately 1,500 feet per second; while revolving around the Sun at 67,000 miles per hours—approximately 19 miles per second; and the Sun, which is revolving around the Milky Way Galaxy at 514,000 miles per hour—approximately 145 miles per second; and the Milky Way, which is revolving around the universe at a whopping 1.34 million miles per hour (by some theories); and a universe which is “observable” at an alleged radius of 46 billion light-years from Earth—making the diameter of the “observable” universe about 91 billion light-years; all held together by a magical concept called “gravity”...

How can you...possibly believe the simplistic Biblical account of an “intentional” Six-day Creation story about a Geocentric Model of the Earth, that is stationary (non-rotating), on a flat plane, centered at the North Pole, supported by four pillars, covered by a dome/firmament, with the Sun, Moon, and stars rotating around inside of it?

Speaking of magical “gravity”—it’s alleged centripetal force can hold billions of gallons of water (oceans, seas, rivers) up against the Earth, while spinning at 1,000 miles per hour, somehow negating any centrifugal (inertial) force that would result from such a spin; and yet, a mere child can make a merry-go-round spin so fast that his/her friends cannot hold-on due to the centrifugal force created by the rotation of the merry-go-round. The explanation of modern science is that centrifugal force is “not real” but is really a “fictitious” or “pseudo” inertial force established so that Newtonian laws are valid when observing motion. You’re not really feeling what you feel. Tell that to the kids flying-off the merry-go-round. This is crazy! You don’t really feel what you feel, and you don’t really see what you see, and you don’t really know what you know.

Both models of the Earth cannot be true!

Either, the Geocentric Biblical version is a fabrication/lie, allegory, and doesn’t really mean what it says—“*Did God really say that?*”; or, the Heliocentric version is a fabrication/lie intended to offer another explanation opposed to Scripture. Most of the evidence of the scientists and astronomers (i.e. Ptolemy, Brahe, Lord Bacon, Scott, Rowbotham, Woodhouse, etc.), in the 19th Century and much earlier, who vehemently opposed the initial

development and/or redevelopment of the Heliocentric model, or attested to its inaccuracy; have been silenced, misinterpreted, verbally ridiculed, or scientifically scoffed at in modern academia. You can barely “Google” them, and you have to really dig deep to read their writings for yourself. I won’t even touch on the *flat-as-a-pancake* problem of the Earth; except to say that a lot of the math behind modern theories such as range and aerodynamics calculations are based upon a “*flat-earth assumption*.” Which begs the question: Why would we base anything on a flat-earth assumption if the Earth is a sphere? They say, because it makes the calculations easier. So, with all the super-computer technology we now possess with super-fast speeds and accuracy, we have to make calculations “easier”? As with most things concerning truth, morality, faith, the Bible, and God; we have only been fed the worldly side of the story. The “**Default Rebuttal**” is the most common accusation. However, according to Newton, Einstein and all other “honest” scientists—on both sides of the argument, the SAME MATH supports both a Geocentric or a Heliocentric model. Thus, one of them is an “astronomical” (pun intended) LIE!

The shepherds of Israel (Jewish and Christian) have allegorized God’s truths in order to achieve “tolerance” of their religious views in an unconverted social environment. The shepherds—then and today, weren’t/aren’t seeking acceptance of their views about God—just tolerance. In other words, we’ll go along with the unbiblical version of Creation and the Cosmos and find a way to compromise—just leave us alone and we’ll leave that alone. Allegorization of the Creation account is a compromise of God’s truths and therefore a compromise of His existence and attributes.

Is this a “conspiracy theory”—absolutely YES!

And, God’s enemies are behind it! And the more nonsense that people can come up with on *YouTube* and the Internet—the better for the Lie and the Author of Confusion. This is why it is so difficult to navigate to the truth. It’s frustrating and spiritually draining. Kind of like what C.S. Lewis said he felt when writing *The Screwtape Letters*. But I know that God will give you the wisdom to understand this knowledge, if you lean on Him and not your own understanding. I am concerned about what God’s people think.

I’m not concerned about what unbelievers, atheists or believers in other faiths think about this debate. If you don’t know Scripture, or if you don’t believe in the God of Abraham, Isaac, and Jacob—what do I have to do with you? Nothing!

However, if you profess faith in Jesus Christ, Yeshua HaMaschiach, HaShem, Elohim, Adonai, G-d, YHVH—Jewish or Christian—then, I have every intent of addressing you.

Joshua 24:15: *"And if it seems evil to you to serve the LORD, choose for yourselves this day whom you will serve, whether the gods which your fathers served that were on the other side of the River, or the gods of the Amorites, in whose land you dwell. But as for me and my house, we will serve the LORD."*

Matthew 6:24: *"No one can serve two masters; for either he will hate the one and love the other, or else he will be loyal to the one and despise the other. You cannot serve God and mammon."*

I told myself I would keep quiet about this! I said, I would not speak of it. I don’t want people to think I’m crazy. If this is true, and I now believe it is; this would have to be the biggest deception of all time. Each person has to decide for him/herself. It’s unfathomable! But the evidence is overwhelming. In truth, the biggest LIE is the foundation of this Heliocentric lie. The biggest LIE is the denial of the existence of God Himself. To use a modern vernacular: Our Father says, “*Welcome to My world—I’ve been dealing with this for millennia!*”

Therefore, I’d rather have people think I was crazy, than for Father to decide that I am ashamed of His Word.

Jeremiah 20:7-9:

O LORD, You induced me, and I was persuaded; You are stronger than I, and have prevailed. I am in derision daily; Everyone mocks me. For when I spoke, I cried out; I shouted, "Violence and plunder!" Because the word of the LORD was made to me a reproach and a derision daily. Then I said, "I will not make mention of Him, nor speak anymore in His name." But His Word was in my heart like a burning fire shut up in my bones; I was weary of holding it back, and I could not.
